- Sweden — telenor
- Switzerland — Salt. / swisscom
- Turkey — vodafone / avea
- U.A.E. — etisalat اتصالات
- United Kingdom — vodafone / EE
- Vatican City — vodafone

* 4G roaming is available only on select networks and devices which support 4G. Varying from place to place, when daily data usage hits 1GB/500MB, data speeds will be capped at 512kbps, allowing you to continue using data roaming.

^If you are in a destination that only supports VoLTE Roaming Service (such as Macau, Japan, Singapore, Taiwan, Norway, Sweden, Switzerland, Australia, New Zealand, USA) where there's no 2G/3G network coverage), you will need to use a VoLTE-compatible handset and enable VoLTE function on the handset to enjoy data roaming.
